

*Being green is about
more than appearances.*

Westpac's Environment Advisory Group
invites you to the . . .

Westpac Environment Day

Wednesday 23 February 2005

Global Climate Change. Water Scarcity. Biodiversity. Socially Responsible Investment.

- How is Westpac playing a role in addressing these environmental issues?
- What areas of the bank are involved and how?
- What can I do as a Westpac employee and as an individual?

Corporate Responsibility and
Sustainability by 18 February 2005:
environmentday@westpac.com.au

Westpac Environment Day is your chance to learn about the major environmental issues facing Australia today. And, more specifically, what Westpac and you as an individual can do to play a part in reducing Australia's environmental footprint.

Environmental sustainability is a simple concept for us: it is about running our business in a way that reduces our own environmental footprint and embraces our role as a catalyst for long-term change.

Who's speaking and what issues will be covered?

Dr David Morgan, CEO, Westpac

Unveiling our social, environmental and financial track record: 2004 Stakeholder Impact Report.

Greg Bourne, CEO, WWF

A carbon constrained world – implications for business.

Dr Noel Purcell, Group General Manager Stakeholder Communications, Westpac

Environmental sustainability: How does this fit into our broader corporate responsibilities?

Lyn Lennard, General Manager Group Property, Westpac

Greening our workplace: The new corporate headquarters and beyond.

Susan Clark, Senior Manager SSCM, Strategic Sourcing, Westpac

Sustainable Supply Chain Management: Greening our suppliers.

Max Mosher, Comfy House Design

Greening your home.

Mike Cleary, Head of Project & Structured Debt, Westpac

How does Westpac manage the environmental & social risks associated with the projects it finances?
