

Operating since 1995 VfU is a network of financial institutions in Austria, Germany, Liechtenstein and Switzerland pursuing the aim to create innovative and sustainable solutions for and with its members.

It has three main functions: member dialogue to generate, distribute and consolidate sustainability know-how within financial institutions; fostering research and innovation on sustainable finance; and network and cooperating with relevant stakeholders, including via policy dialogue.

VfU focuses on four major thematic areas: Disclosure and reporting; Policy, regulation and international standards; Processes and services; and Climate Change.
