

STATEMENT BY FINANCIAL INSTITUTIONS ON ENERGY EFFICIENCY

We, the Alliance of Energy Efficiency Financing Institutions:

- acknowledge that the financial sector is uniquely placed to channel finance to activities that promote energy efficiency
- understand there are many unaddressed energy efficiency financing opportunities in our markets
- are already providing finance to support our clients with energy efficiency investments
- will actively contribute to scaling up energy efficiency financing
- without taking on undue burden, are willing to work towards tracking our deployment of energy efficiency finance
- recognise the need to further embed energy efficiency investment principles into the way in which we engage with our clients
- have a special interest in guiding our clients towards best practice financing decisions, including on modernisation and competitiveness strategies that instil enhanced energy efficiency
- are willing to work with institutional and public financiers seeking to deploy climate finance to our clients
- welcome the opportunity to share our experiences and acquire knowledge of successful business strategies for integrating energy efficiency across our financing operations.
