UNEP FI and WBCSD Address the ESG Inefficiency of Capital Markets

Central and Eastern European Pilot Workshop

30 October 2008, 9h00 – 17h00, Vienna

I. Background

Despite the surge in corporate social responsibility (CSR) reporting; environmental, social and governance (ESG) analysis; and responsible investment activities in recent years, the corporate valuation mechanisms of capital markets still do not appear to have fully captured the sustainability value of traded companies. Do capital markets remain unconvinced of the financial materiality of ESG factors or do they simply lack the information and instruments needed to truly integrate ESG factors into company valuation?

United Nations Environment Programme Finance Initiative (UNEP FI) and the World Business Council for Sustainable Development (WBCSD) are organizing workshops in investment hubs in developed and emerging markets, bringing together investee companies via WBCSD and investors via UNEP FI.

This workshop will be hosted by the BCSD Austria, the WBCSD and UNEP FI and will join member companies from BCSDs based in Central & Eastern European (CEE) markets with asset managers from leading financial institutions also based in the CEE.

The WBCSD and UNEP FI have run similar workshops already this year in London (UK), Montreux (Switzerland), New York City (US) and most recently in Kuala Lumpur (Malaysia). Feedback has been extremely positive so far, due to the unique format that we employ in these workshops; the process is now referred to as, Sustainability Speed-Dating: Selling sustainability to the capital markets. (see some outcomes at http://www.unepfi.org/events/2008/kualalumpur/index.html)

Please confirm your interest in this workshop by sending an e-mail to valuation@unepfi.org soonest possible and no later than Monday, 6 October. We will gladly respond to any questions you may have.

V. Further Information

Pilot workshops start dialogues in a particular market, generally with ESG investors (ESG/SRI/RI) on the one hand, and CSR officers of investee companies (CSR/sustainability/sustainable development) on the other. Pilots are then scaled-up to include more industry sectors and participants from the same audience, before eventually moving to the target dialogue engaging mainstream investors and investor relations officers of investee companies, with influence from ESG investors and CSR officers.

1. Pilot Workshops (present dialogue)
   ESG investors & CSR officers of companies

2. Scaled-Up Workshops (more industry sectors, participants)
   ESG investors & CSR officers of companies

3. Mainstream Workshops (target dialogue)
   ESG and mainstream investors & CSR and investor relations officers of companies

Workshops in Geneva (Western Europe mainstream), Johannesburg (South Africa pilot) and Tokyo (Japan pilot) are scheduled for the rest of 2008.
