“CLIMATE CHANGE PROVIDES THE OPPORTUNITY TO MAKE A DIFFERENCE”

- Connect Annex-1 mechanisms, requirements and capabilities with the needs and potential of the developing world.

- Long term solutions, partners and investment will bring sustainable development and returns.

- Transparency, market confidence and financial incentives are essential to widespread participation.

- Education and start up resources will provide the solution to environmental equality.
Sustainable Carbon Solutions

- London based project development consultancy and financier
- CDM and Voluntary market projects mainly in Southern/Eastern Africa and South America
- Seeking equity investors in SCS or debt financing for projects
- Focus on projects with dual revenue streams for reduced risk and improved long term investment opportunities

Current early stage opportunities:

(i) Tanzania POA project with REDD, animal waste management, fuel switching and renewable energy potential
(ii) 10,000 hectare biofuel afforestation project in Mozambique
(iii) 14,000 hectare biofuel afforestation project Peru

Investment in a business carries high risks as well as the possibility of high rewards. It is highly speculative and potential investors should be aware that no established markets exist for the trading of shares in private companies. Reliance on this document for the purposes of engaging in any investment activity, including entering into a Proposed Transaction, may expose the Recipient to a significant risk of losing all of the sums invested or incurring additional liability. If the recipient is in any doubt about the investment to which this presentation relates, they should consult an authorised person specialising in advising in purchases of, or investments in shares of listed and unlisted companies. No representation, warranty or guarantee express or implied is made in this document. No representation, warranty or guarantee express or implied is made that the information provided is accurate, current or complete. Whilst care is taken in the collection and provision of this information, Sustainable Carbon Solutions Ltd and its officers, employees, agents, advisers and sponsors will not be liable for any errors, omissions, misstatements or mistakes in any information or damages resulting from the use of this information or any decision made or action taken in reliance on this information.

In particular this document contains certain statements, estimates and projections with respect to Sustainable Carbon Solutions Ltd (and its associated companies) and as to the market for its products and services. Such statements, estimates and projections reflect various assumptions made by the management of Sustainable Carbon Solutions Ltd concerning anticipated results, which assumptions may or may not prove to be correct.
