**About UNEP Finance Initiative (UNEP FI)**  
UNEP FI is a strategic public-private partnership between UNEP and the global financial sector. UNEP FI works with close to 200 financial institutions that are Signatories to the UNEP FI Statements, and a range of partner organisations, to develop and promote linkages between the environment, sustainability and financial performance. Through a comprehensive work programme, regional activities, training and research, UNEP FI carries out its mission to identify, promote and realise the adoption of best environmental and sustainability practice at all levels of financial institution operations.  
For more information: please visit [www.unepfi.org](http://www.unepfi.org).

**About the Climate Change Working Group (CCWG) of UNEP FI**  
The CCWG is a global platform of 21 financial institutions that collaborate to understand the implications of climate change on financial performance, to explore the roles of the finance sector and capital markets in addressing climate change, as well as to advance the integration of climate change factors – both risks and opportunities – into financial decision-making. The CCWG is currently chaired by Deutsche Bank (Mark Fulton, Global Head of Climate Change Investment Research) and HSBC (Nick Robins, Head of Climate Change Centre of Excellence).

**About the Korea Group of UNEP FI**  
The UNEP FI Korea Group, currently chaired by KB Kookmin Bank, consists of all UNEP FI Signatories based in South Korea. The Korea Group is a sub-group under UNEP FI's wider Asia-Pacific Task Force. It provides a platform for South Korean Signatories to exchange information and best practice on sustainable finance, and collaboratively address country-specific sustainability priorities and gaps.
