INTERNATIONAL DEVELOPMENTS AND TRENDS
EQUATOR PRINCIPLES

- A credit risk management framework for determining, assessing and managing environmental and social risk in Project Finance.
- Launched in 2003 by ten international banks and currently adopted by 80 financial institutions.
- EPs have now become a global standard for project finance covering over 70% of international project finance debt in emerging markets.
- EPs provide a framework for the environmental and social evaluation of projects: compliance with IFC social & environmental policies and quantitative environmental guidelines (outside High Income OECD countries).
- EP III:
  - An extension in the scope of the EP to Project-Related Corporate Loans and Bridge Loans.
  - Greater emphasis on human rights, climate change and biodiversity, and a strengthening of reporting and transparency requirements.

| OECD Guidelines for Multinational Enterprises (2011) | ▪ The Guidelines are far-reaching recommendations addressed by governments to multinational enterprises operating in or from adhering countries.  
▪ They provide voluntary principles and standards for responsible business conduct in areas such as employment and industrial relations, human rights, environment, information disclosure, combating bribery, consumer interests, science and technology, competition, and taxation.  
▪ Turkey is an adhering government.  
▪ Currently an OECD Working Group on Responsible Business Conduct reviewing application of the MNE guidelines by financial institutions. |
| National Contact Points (NCP) | ▪ Agencies established by adhering governments to promote and implement the Guidelines.  
▪ NCPs have a complaints procedure for recourse against |
| Financial Institution Complaint Example | ▪ January 2013: UK NCP Initial Assessment - complaint from a non-government organisation in Russia against a UK bank (C)  
▪ The UK NCP rejects the complaint against UK Bank C. |
OPPORTUNITIES BEYOND THE RISKS
OPPORTUNITIES - POSITIVE IMPACT FINANCE

- Positive Impact Finance is a matter of financing:
  - **Economic convergence** (development of Emerging / Developing countries)
  - **Global goods** ("green" financing)
  - **Human welfare** (healthcare, education, transportation, water, energy…).

- Thus addressing the challenges of a changing world.
« Positive Impact Finance » is defined as a positive impact on one of the sustainable development pillars subject to the correct remediation of potential negative impacts.
