Save the Date for
THE RISK PROTECTION GAP LABORATORY
and
A MASTER CLASS:
‘Underwriting with Environmental, Social and Governance Risks in Mind’
Monday 9th March 2020
10.00 to 17.00 followed by cocktails
Santam Regional HQ, 11 Alice Lane, Sandton, Johannesburg

Part of the
1ST SUSTAINABLE INSURANCE AFRICA WEEK
9th – 13th March 2020
Brought to you by
The United Nations Environment Programme’s Principles for Sustainable Insurance

In partnership with Santam and Zimnat
with contributions from
Centre for Financial Regulation and Inclusion (CENFRI),
The South African Insurance Association (SAIA) and
The Institute of Risk Management of South Africa (IRMSA)

Attendance by Invitation

AGENDA for Monday 9th March
A chance to catch up with thought leaders and practitioners on steps being taken to confront critical challenges to African economies and make the continent’s vulnerable populations more resilient to future shocks. The day builds on the two-day Risk Protection Gap Laboratory held in April 2019 in Johannesburg. The focus will be on updating progress and innovations across the growing network of concerned institutions and experts within risk management and insurance. Stories and data to share will be particularly welcome, so we can map and accelerate what’s emerging!

<td>Refreshments &amp; registration</td>
<td></td>
</tr>
<tr>
<td>10.00 – 12.30</td>
<td><strong>Narrowing the Risk Protection Gap</strong>: Reporting what’s being done</td>
<td>The Risk Protection Gap is the stubbornly large gap between insured and economic disaster losses, a gap that typically gets filled post-disaster (though always only partially) by government or those who suffered the loss. Best thinking is that the way for insurers to underwrite a larger portion of potential disastrous losses on a sustainable basis is for government, the insurance industry and other stakeholders to invest in smart, systemic risk reduction strategies. In this session we hear and assess local cutting-edge examples of this.</td>

**The Purpose of Sustainable Insurance Africa Week**

To bring together leading practitioners and thinkers within the African risk management and insurance ‘ecosystem’ to share experiences and ideas that can grow a resilient, sustainable, responsible and profitable African insurance sector. A proven opportunity to innovate in the company of one’s peers. All sessions are interactive – barely any speeches, many productive conversations.

*We look forward to welcoming you at either or both of these events!*
