

ACCOUNTING TO SUPPORT DECISION MAKING ON NATURAL CAPITAL

Carl Obst - Director, IDEEA Group

UNEP-FI Conference: Sydney, 24 July
2018

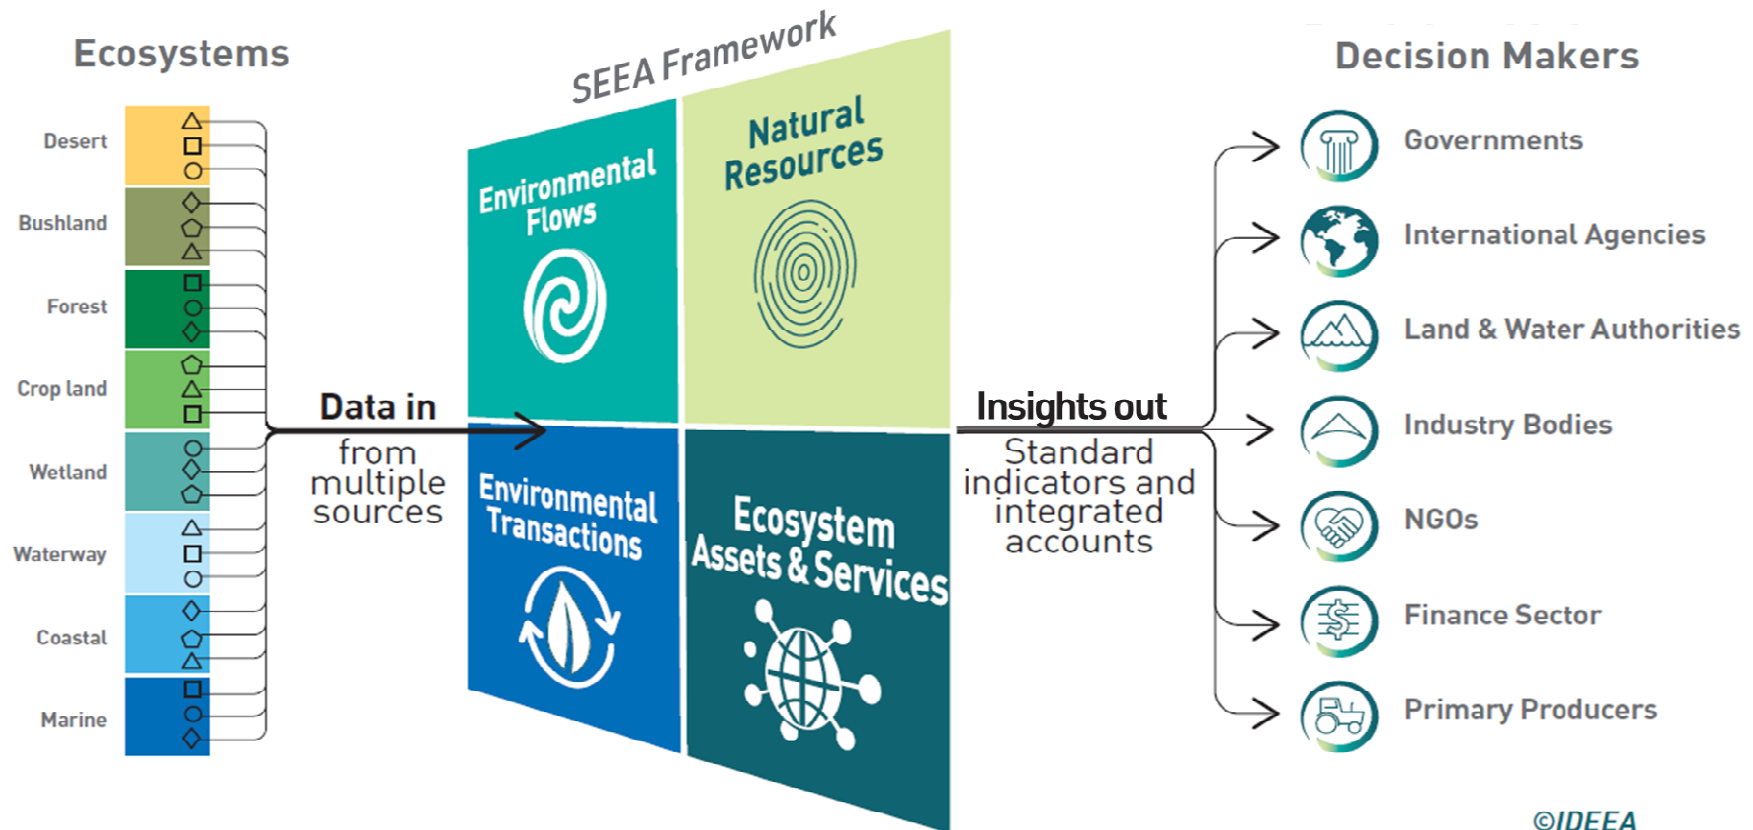

SEEA: AN INTERNATIONAL STANDARD

KEY FACTS

- Unanimously adopted by UN Statistical Commission in 2012
- Jointly published by UN, EU, FAO, IMF, OECD and World Bank
- Progressing rapidly towards target of implementation by 100 countries by 2020
- Seen as a key tool to underpin measurement of progress towards the SDGs
- Connections to global processes including those on biodiversity, land degradation and climate change
- In April 2018, Australia's environment ministers signed off on a [national strategy](#) for SEEA implementation

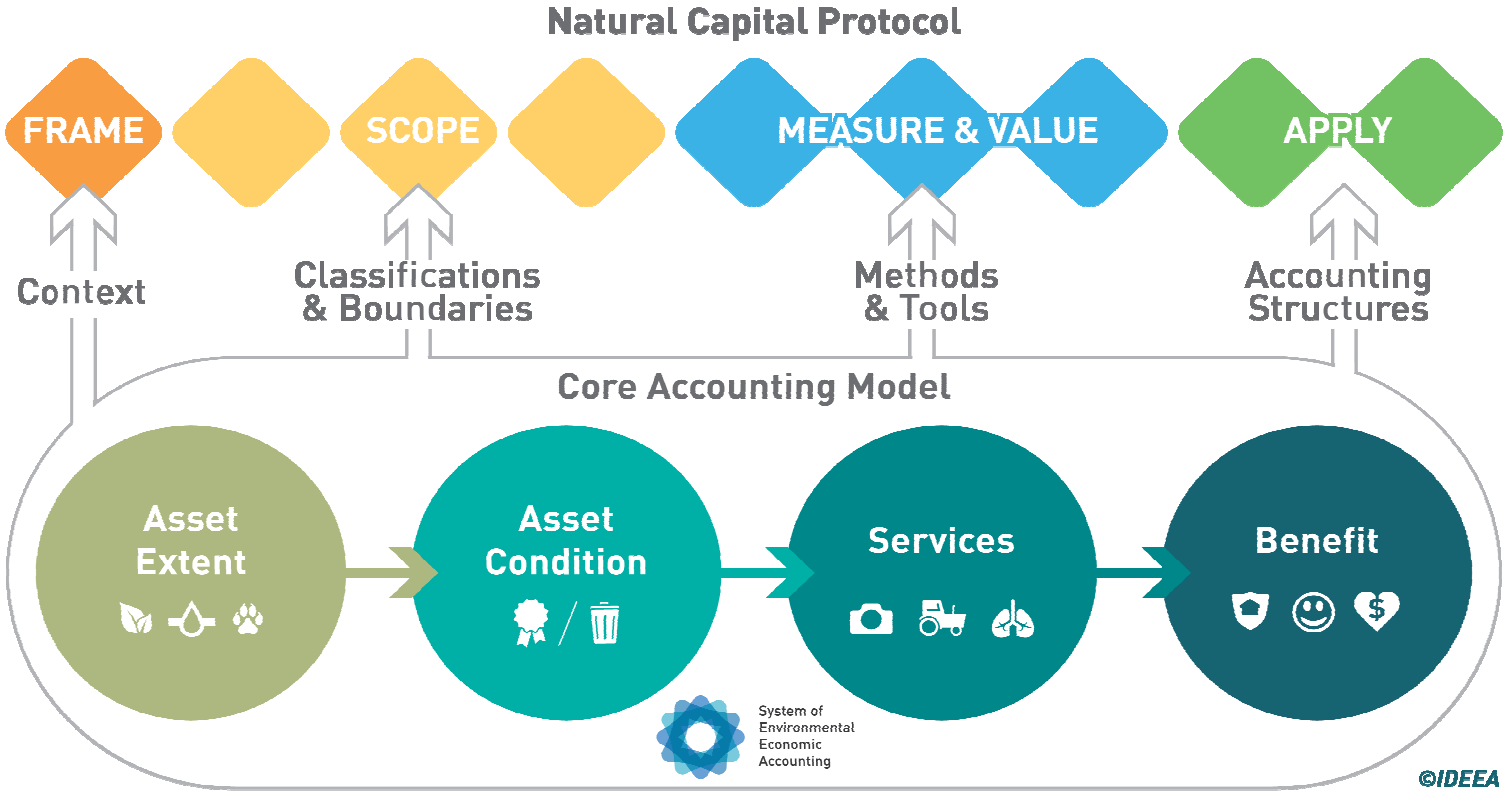

SEEA AS A DECISION MAKING PLATFORM

LINKING PRIVATE & PUBLIC APPROACHES

NATURAL CAPITAL COALITION **COMBINING FORCES** INITIATIVE

'Combining Forces' provides a focal point to bring together different strands of thinking on natural capital. It is an open, cross-cutting network of experts from all sectors, working together to ensure that the value of nature is included in decision making.

We intend to:

- continue to support each other's work;
- clarify how approaches overlap and combine; and,
- produce materials to support the inclusion of natural capital in public and private decision making.

We welcome other organizations joining this collaborative movement
