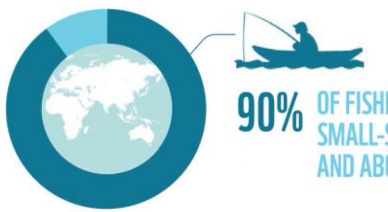
AN OCEAN OF BENEFITS

3 BILLION PEOPLE
RELY ON FISH AS A MAJOR SOURCE OF ANIMAL PROTEIN*

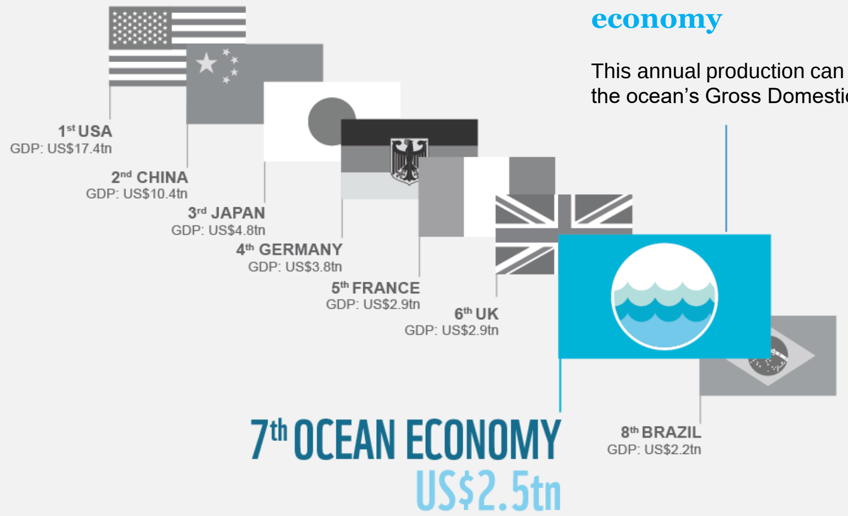


90% OF FISHERFOLK ARE SMALL-SCALE FISHERS, AND ABOUT HALF ARE WOMEN

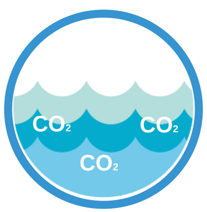
THE OCEAN ABSORBS 93% OF ADDED HEAT

The annual economic value generated from the ocean would make it the world's 7th largest economy

This annual production can be thought of as the ocean's Gross Domestic Product



Hoegh-Guldberg *et al*, 2015. Reviving the Ocean Economy, WWF



30% of CO_2
THE OCEAN ABSORBS 30% OF ANTHROPOGENIC EMISSIONS OF CO_2

50% of O_2
THE OCEAN PRODUCES ABOUT HALF THE OXYGEN WE BREATHE

* fish from marine and inland fisheries

DECLINE OF FISHERIES
59.9%
FULLY-FISHED
33.1%
OVER-FISHED
7%
UNFISHED
DECLINE OF MARINE SPECIES
Populations of marine species have declined by 36% between 1970 and 2012
DECLINE OF HABITATS
50% of the world's coral reefs have disappeared
Almost one-third of all seagrasses have been lost
Deforestation rate of mangroves exceeds even the loss of forests by 3-5 times
3-5x
97%
Pacific bluefin tuna numbers have dropped more than 97% from unfished levels
36%
50%
29%
> 8 million tonnes
of plastic dumped into the sea every year. That's the same as a garbage truck dumping a full load into the ocean every minute

AN OCEAN OF OPPORTUNITY

A SUSTAINABLE BLUE ECONOMY:

SUSTAINABLE DEVELOPMENT GOALS

Restores, protects and maintains the diversity, productivity, resilience, core functions, and intrinsic value of marine ecosystems — the natural capital upon which its prosperity depends.

Is based on clean technologies, renewable energy, and circular material flows to secure economic and social stability over time, while keeping within the limits of one planet.

Provides social and economic benefits for current and future generations by contributing to food security, poverty eradication, livelihoods, income, employment, health,safety, equity, and political stability.

The Sustainable Blue Economy Finance Principles

- The Ocean is at the centre of SDG 14, a **clear signal to investors** that the international community supports the development of a sustainable Blue Economy
- Transitioning to **more sustainable investment pathways** requires a set of guardrails **to guide investment decisions and development policy**
- Emerging **governance tools**, **regulations** and **approaches** to build ocean resilience and **guide** long-term **investment opportunities** are needed
- **14 Principles** to support investment in a sustainable blue economy
- 7 accepted principles for **sustainable investment** and 7 principles have been designed specifically **to address Blue Economy challenges.**
- The Principles will become part of a **new sustainable blue economy finance initiative** under the auspices of the UN Environment
