

FLOW OF FUNDS

IMPACT PATHWAY

OUR FINAL ENVIRONMENTAL AND SOCIO-ECONOMIC IMPACT

Since its inception in December 2014, the eco.business Fund has contributed to:

159,000 hectares
of farm land under sustainable management

5.5 million tons
of absolute CO2 stock maintained by agroforestry and forestry systems

4.2 million cubic meters
of irrigation water saved

~280,000
direct jobs supported

471 hectares
soil erosion avoided

81,000 hectares
of farmland under soil conservation practices

30,000 liters
of herbicide use avoided

69,210 m3
liquid waste treated or recycled
