NET ZERO ASSET OWNERS ALLIANCE

WORKSHOP

#### May 17, 2023

## AGENDA & OVERVIEW

II:00am	Summary of Convergence and Blended Finance	Chris Clubb, Convergence
11:05	Collaboration Agreement: Convergence & Net-Zero Alliance	Chris Clubb, Convergence
11:10	Demonstration of Convergence Investment Platform and web- based functions	Olive Munene, Convergence
11:20	How each Alliance member can sign up for access to Convergence Investment Platform and services	Olive Munene, Convergence
11:25	Q & A	ΑΙΙ

## WHAT IS CONVERGENCE?

Convergence is the global network for blended finance. We generate blended finance data, intelligence, and deal flow to increase private sector investment in developing countries.

## THREE AREAS OF FOCUS:

- Help build effective and efficient blended finance market
- Support successful fund raise of blended finance vehicles/transactions to increase SDG and Climate investment
- Developing Countries (Emerging Markets & Frontier Markets)
- 3 CONVERGENCE

## A GLOBAL NETWORK

We have a global <u>membership</u> of over 200 public, private, & philanthropic institutions

## DATA & INTELLIGENCE

Original <u>content</u> builds the evidence base for blended finance, including data on past deals, trend reports, case studies, region and sector briefs, and webinars.

## DEAL FLOW

An online match-making platform for investors and those seeking capital to connect on active deals.

## MARKET ACCELERATION

Our <u>Design Funding</u> program awards grants for the design of innovative vehicles that aim to attract private capital to global development at scale.

# \$3.5 TRILLION SDG INVESMENT GAP PART FINANCEABLE BY PRIVATE SECTOR

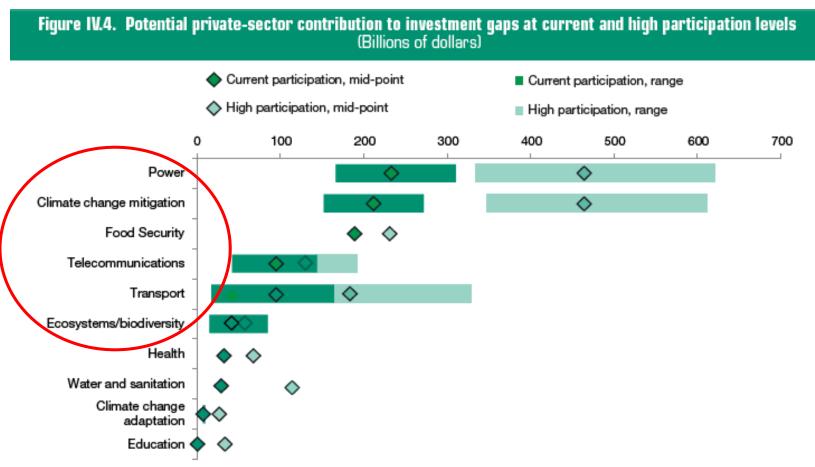

UNCTAD: \$4.5T SDG & Climate Investment Needs annually

52% Public / 48% Private33% Climate

Actual investment only \$1.5T (30%) \$3.0 Trillion Investment Gap

MDB-DFI investment \$140B pa (3%) MDB-DFI Mobilization \$20B (0.5%) Total Mobilization \$45B (1%)

T:Trillion B: Billion

Source: UNCTAD.

Note: Private-sector contribution to investment gaps calculated using mid-points of range estimates in table IV.2. The higher participation level is the average private-sector investment shares observed in developed countries. Some sectors do not have a range of estimates, hence the mid-point is the single estimated gap.

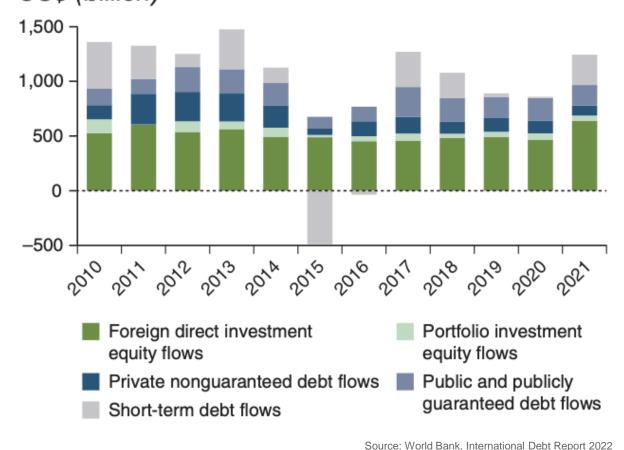

## NET DEBT & EQUITY FLOWS TO LICS & MICS (INCLUDING CHINA)

Total public sector loans and private sector FDI, debt and equity average less than \$900 billion since 2015. Less than 25% of SDG and Paris Agreement investment needs

Private sector financial investment (e.g., net debt and net equity) less than \$150 billion annually

# Post-SDG flows (2015) lower than before SDGs

\$6.6 trillion gross debt to LICs & MICs equals 1.5% of Global Financial Assets Figure BO.1.1 Net Equity Inflows and External Debt Flows to Low- and Middle-Income Countries, 2010–21 US\$ (billion)

## MDB PRIVATE SECTOR LOAN PORTFOLIO: LESS RISKY THAN EXPECTED

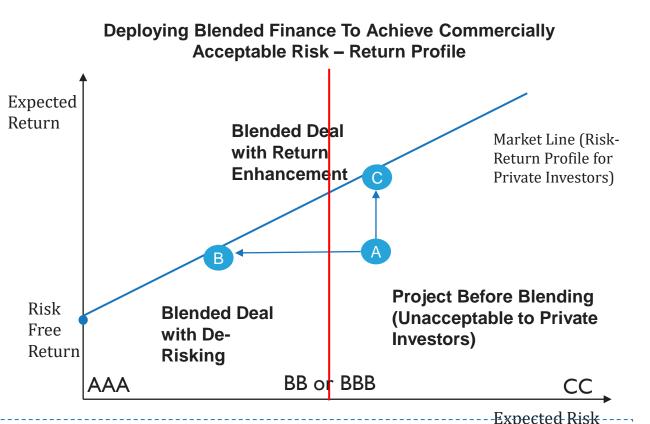

- Low & Middle-Income Countries with annual SDG & Climate investment needs of around \$4.5 trillion:
- 13 rated Investment Grade
- 76% rated B or lower
- Median risk rating of "B-"
- Many good quality projects, but located in high-risk countries
- Large majority of debt investment opportunities rated B or CCC – Beyond investors' fiduciary and regulatory obligations
- MDBs and DFIs are not in the business of derisking to mobilize private investment – mobilize on pari passu terms
- Core of blended finance is (i) de-risk to within fiduciary and regulatory obligations (e.g., BBB and BB) and (ii) create market-equivalent riskreturn

INVESTMENT GRADE BB B CCC OR LOWER

## BLENDED FINANCE CAN CREATE INVESMENTS THAT MEET INVESTORS' REGULATORY AND FIDUCIARY OBLIGATIONS

- Blue line is the CAPM efficient range of risk & return combinations available to debt investors
- Red line is "maximum acceptable risk" for an investor (e.g., Investment Grade)
- Investments below blue line and right of red line not acceptable to fiduciary investors
- Developing Countries risk high: B & CCC
- Reducing risk to left had side of red line is critical
- Convergence Historical Deals Database: 500+ transactions demonstrate how concessional funds deployed to mobilize private investment

No innovations required

Goal of Blended Finance : Create "market equivalent" investments at acceptable risk to mobilize private sector investment to SDG AND CLIMATE projects in Developing Countries

Source: Convergence 2022

## TWO GOLD STANDARD EXAMPLES OF MOBILZING PRIVATE INVESMENT AT SCALE TO MDB LOANS

## ILX PRIVATE CREDIT FUND:

- Mobilizing private investment into MDBA-B loans: No concessional funds nor de-risking required
- \$1 billion of private investment mobilized portfolio diversification with multiple MDBs
- Investment risk will be loans rated "BB-" or better: Well-rated Middle-Income Countries

## **IFC-SIDA MCPP INFRASTRUCTURE FUND:**

- Mobilizing private investment into MDBA-B loans: Concessional and non-concessional funds de-risk investors
- \$1.5 billion of private investment mobilized portfolio diversification with IFC
- Investment risk will be loans rated "BB" and "B": MICs and LICs
- Thanks to de-risking, diversification, and IFC track record, investors modelled invest at Investment Grade "BBB"

## ILX - SDG & Climate Focused EM Private Credit Fund

**ILX Management** is an Amsterdam-based specialist SDG and Climate-focused Private Credit Asset Manager. The company focusses on Global Development Finance co-investment strategies and partners with the leading Multilateral Development Banks and Development Finance Institutions such as the IFC, IDB-Invest, EBRD, ADB, AfDB and FMO. The company is AIFMD Licensed and Regulated.

#### **Active Fund**

#### **ILX Fund I**

- Investor commitments of USD 1.05 billion
- 1<sup>st</sup> close in Jan 2022
- Invests in MDB/DFI-originated USD & EUR loan participations
- Invested >USD 300 mil in 2022
- Invested 50% in Climate Finance
- SFDR Article 9 (Dark Green) Fund
- Invests across all regions and sectors in Emerging Markets
- Investment Strategy generates:
  - Attractive risk-return
  - Highest ESG safeguarding standards
  - Direct, measurable, positive SDGand Climate-related impact

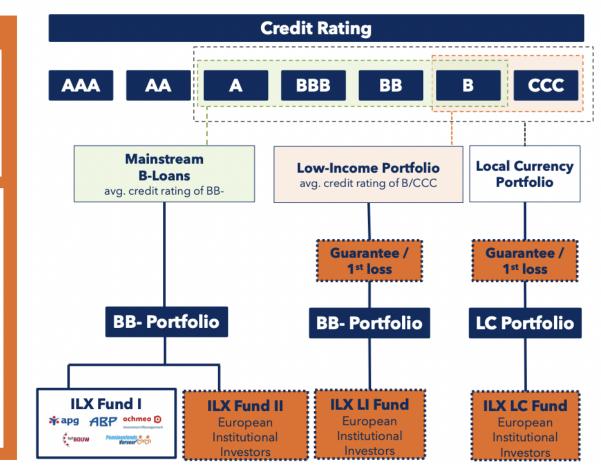

#### Follow-On Funds & Strategy

#### ILX Fund II

- Target Investor Commitments of USD 2 billion
- Target 1st Close in Q4 2023 Q1 2024
- Similar scale-up strategy to ILX Fund I

#### ILX Low-Income / Local Currency Fund

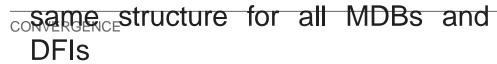

- High-risk LI/LC strategies with blended structure i.e., guarantee, first-loss
- Target 1<sup>st</sup> Close in H1 2024
- Fund strategy Examples:
  - Diversified high impact DFI investments in Low-Income Countries
  - Diversified Local Currency DFI Infrastructure and Renewable Energy investment across Emerging Markets

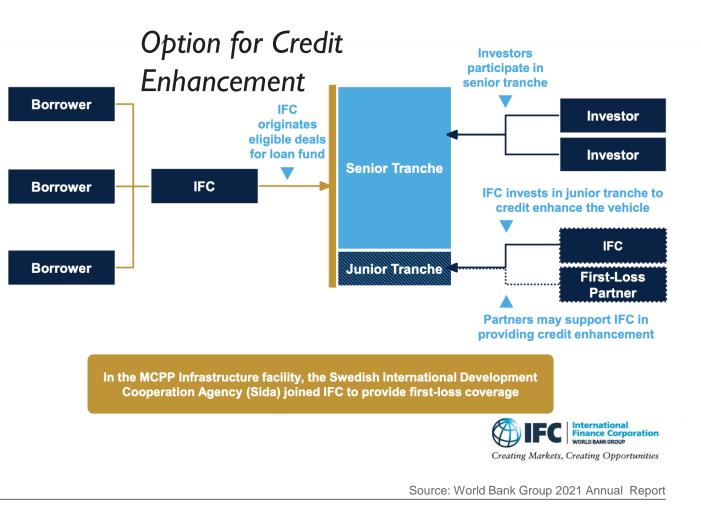

## EXAMPLE: IFC & SIDA MCPP INFRASTRUCTURE PROGRAM

Core components:

- IFC arranges portfolio of senior loans to infrastructure projects
- Loans priced ca. Libor + 3.6%
- Transfer 50% of each loan to MCPP Fund
- Fund capitalized 90% by senior notes and 10% junior capital
- Senior notes modelled at BBB/BBB+
- \$1.5 billion senior notes subscribed by Alliance, Axa and Prudential
- Transaction is a unicorn No MDB has replicated
- Scale: Repeat Create one Fund -

## MDBs: Existing Capital Utilization and Likely Headroom

AAA rating allows only low leverage of MDB capital

Fifth column is approximate maximum leverage of equity for each MDB to maintain AAA rating

Capital utilization around 40%

Around \$1.25 trillion headroom

If shareholders prepared to govern MDBs at AA versus AAA, around 50% extra lending possible.

Analysis does not include national DFIs.

	Shareholders	Development	Actual	Likely Leverage	Maximum Development	Head	Capital Utilization: Actual Relative
MDB	Equity	Assets	Leverage	Possible	Assets	Room	Maximum
AfDB	11	34	3.1	5.0	55	21	62%
ADB	53	133	2.5	5.5	292	159	46%
AIIB	20	8	0.4	6.0	120	112	7%
CAF	13	29	2.2	6.0	78	49	37%
CDB	1	1	1.0	5.0	5	4	20%
EBRD	22	41	1.9	5.5	121	80	34%
IDB	34	106	3.1	6.5	221	115	48%
IBRD	40	211	5.3	6.5	260	49	81%
IDA	168	168	1.0	4.0	672	504	25%
IDB Invest	2	4	2.0	4.0	8	4	50%
IFC	25	47	1.9	4.0	100	53	47%
IsDB	13	25	1.9	5.0	65	40	38%
NDB	10	7	0.7	6.5	65	58	11%
Total	412	814	2.0		2,062	1,248	39%
Source: G20 2022 Independent Capital Review							
Likely Leverage Possible while maintaining current risk ratings: Discussions with Big 3 Rating Agencies and MDB							
investor materials							

Does not include EIB since only 10-14% of its balance sheet is for LICs and MICs

## MDB AND DFI MOBILIZATION: \$18.7 BILLION TO MICS AND \$3.8 BILLION TO LICS & LDCS

CONVERGENCE

## CLIMATE FINANCE TO DEVELOPING COUNTRIES: OBJECTIVE TO PROVIDE/MOBILIZE USD 100 BILLLION ANNUALLY

At COP16 in Mexico in 2010, Developed Countries committed a collective goal to provide and mobilize USD 100 billion per annum for climate action in developing countries.

2022 OECD report: Actual only \$83 billion with \$13 billion mobilized. Figure 1. Climate finance provided and mobilised in 2013-2020 (USD billion)

Source: OECD, Aggregate Trends of Climate Finance Provided and Mobilised by Developed Countries in 2013-2020, 2022

CONVERGENCE

## CLIMATE FINANCE DELIVERY PLAN: LOOKING FORWARD COLLECTIVE ACTIONS BY DEVELOPED COUNTRIES

- I. Increase scale of climate finance
- 2. Increase finance for adaptation
- 3. Prioritize grant-based finance for the poorest and most vulnerable
- 4. Address barriers in accessing finance
- 5. Strengthen the Financial mechanism of UNFCCC and the Paris Agreement
- 6. Work with MDBs to increase and improve climate finance

## 7. Improve effectiveness of private finance mobilized

- 8. Report on collective progress transparently
- 9. Assess and build on lessons learned
- 10. Take into account the broader financial transition required for Paris Agreement Article 2.1c

CONVERGENCE

## NET-ZERO ALLIANCE & CONVERGENCE COLLABORATION AGREEMENT

Alliance and Convergence signed agreement in January 2023.

Collaborate in 2023 to:

I. increase the Alliance members' access to development finance and blended finance transactions seeking private investment,

2. increase direct collaboration between the Alliance members and the official development finance community,

3. Any other activity determined to be beneficial to increase Alliance members' investment

## DEMO OF CONVERGENCE INVESTMENT PLATFORM AND WEB-BASED SERVICES

### HOW EACH ALLIANCE MEMBER CAN SIGN UP FOR ACCESS TO CONVERGENCE INVESTMENT PLATFORM AND SERVICES

- To access the Convergence platform please click on the link below:
- <u>https://www.convergence.finance/sign-up</u>
- You will be prompted to register your institution. Kindly fill out all the information requested and upload your company logo, as well as any supporting documents that are requested, and a member of the Convergence team will be happy to facilitate access to the platform.
- Once granted access to the platform, there is no limit on the number of users from your institution who can sign onto the platform. We encourage members of the Alliance, especially those on the investment teams, to engage with this platform as often as possible, to expand their knowledge of blended finance transactions, news, and resources.
