Dear UNEP FI Team,

As we mark the 4-year anniversary of the Principles for Responsible Banking, we want to thank all of you for your dedication and hard work. Your commitment is essential in achieving our goal of a net-zero banking system. Let's continue working together to make a positive impact on the environment.

The Principles for Responsible Banking celebrate its 4-year anniversary! To build a sustainable future, the banking sector has an essential role to play in aligning with the Sustainable Development Goals (SDGs) and the Paris Agreement. The Principles for Responsible Banking (PRB) are a global initiative that brings together banks to commit to sustainability. They are guided by four pillars: reducing environmental impact, ensuring a socially responsible approach, contributing to economic development, and promoting the implementation of the SDGs.

To mark this milestone, we invite you to participate in our upcoming webinars. These webinars will explore the increased regulatory momentum for human rights and environmental due diligence, the impact of emerging sustainable finance regulation and banking supervision, and other relevant topics. We encourage you to join the next PRB Biodiversity Community on 10 October, where we will discuss the final TNFD Recommendations and hear from PRB banks who have implemented the framework.

You can access a comprehensive factsheet for the Principles for Responsible Banking, which provides an overview of the progress made since the launch of the PRB. The factsheet highlights the achievements and challenges faced by banks in integrating key principles into their business practices. It also provides an opportunity for banks to learn from each other and share best practices.

We hope you will join us in celebrating this important milestone and in working together to make a positive impact on the environment and society. Thank you for your continued support and dedication.

Best regards,

[Your Name]
