

## **Net-Zero Commitment documents for [insert asset owner name]**

### **My Organisation commits to**

- transitioning its investment portfolios to net-zero GHG emissions by 2050 consistent with a maximum temperature rise of 1.5°C above pre-industrial levels, taking into account the best available scientific knowledge including the findings of the IPCC, and regularly reporting on progress, including establishing intermediate targets every five years in line with the Paris Agreement Article 4.9.

### **My Organisation fully endorses and understands that**

- in order to meet our fiduciary duty to manage risks and achieve target returns, this Commitment must be embedded in a holistic approach to managing sustainability considerations, incorporating but not limited to, climate change, and must emphasize GHG emissions reduction outcomes in the real economy.

### **My Organisation will**

- seek to reach this Commitment, especially through advocating for, and engaging on, corporate and industry action, as well as public policies, for a low-carbon transition of economic sectors in line with science and under consideration of associated social impacts.

### **My Organisation makes this Commitment with the expectation that**

- governments will follow through on their own commitments to ensure the objects of the Paris Agreement are met.

[This Net-Zero Commitment is made by individual asset owners to their stakeholders, including beneficiaries and/or shareholders, as part of their overall sustainability strategy](#)
